```java
import java.util.function.IntConsumer;
public class App{
    public static void main(String[] args) {
        IntConsumer ic = x->System.out.println(x);
        ic.accept(3);

        IntConsumer ic2 = new IntConsumer() {

            @Override
            public void accept(int value) {
                System.out.println(value);

            }

        };
        ic2.accept(3);

    }
}
```
